Soal 1
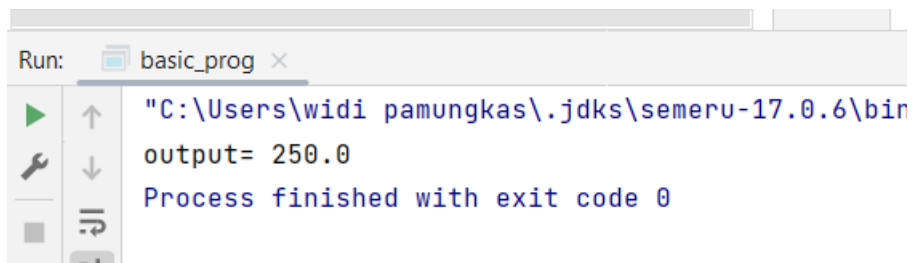

Basic Programming

Source Code

```java
public class basic_prog {
    public static void main(String []args){
        float alas =25;
        float tinggi = 10;
        float n;
        n = alas*tinggi;

        System.out.print("output= "+n);
    }
}
```

Output

```
Run:    basic_prog ×
    "C:\Users\widi pamungkas\.jdks\semeru-17.0.6\bin
    output= 250.0
    Process finished with exit code 0
```
